£33.00 for the block and will be offered on a first come first served basis. LEGO Education's BricQ motion brings Physics to life; forces and motion become relatable, exciting and engaging using these fun LEGO builds. Children will experiment with forces, motion and interactions in the context of sport from a moving dance floor to creating sail cars and tightrope walkers! Throughout these sessions children will engineer models, conduct scientific experiments, make predictions, test, and modify their models.

The above clubs are run by external providers and there will be some additional after school clubs for Year 1 and 2 run internally which will start later this term and details will follow next week.

School dinners

Next week will be Week 2.

Children are offered a piece of fruit at breaktime. If your child brings in an extra snack to have at breaktime this will also need to be a piece of fruit (no sugary snacks or crisps etc). Please remember that we are a **nut free school**.

Message from Emma Thomas

I am hoping you and your children are settling well into the new school year.

Many of you are aware that I am based at our school hub at the Infants school; I am available during school hours to help with many issues you might be facing- if I don't have the answer, I will always try my best to find one!

There are many ways we can help during the cost-of-living crisis, we have the Hygiene Bank, Access to CAP Money advice/courses, Free Uniform "swap shop" and we provide help and support with many different issues including behaviour.

Each Friday morning, I hold a Parent drop in until 10.30am, all welcome, refreshments provided.
